

Ashik E A

Junior Backend Developer

+91-9645031021 | ashikea96@gmail.com | linkedin.com/in/ashikea96 | github.com/ashikea | ashikea.github.io

Professional Summary

MCA candidate and full-stack web developer with hands-on experience in Python (Django), PHP, JavaScript, MySQL, and MongoDB. Skilled in building RESTful APIs, role-based dashboards, and database-driven web applications. Certified in Advanced AI/ML (ELITE Grade) with an Android development background. Seeking entry-level backend or web development roles.

Technical Skills

Languages: Python, PHP, JavaScript, Java, C, C++, Shell Script
Frameworks & Libraries: Django, REST API, Laravel (learning), HTML5, CSS3
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, VS Code, Android Studio, Linux
Core Competencies: Backend Development, RESTful API Design, CRUD Operations, Database Design, Role-Based Access Control, Agile Development, NLP/AI Integration

Work Experience

Android Development Intern **Dec 2023 – Feb 2024**
Grapesgenix Technical Solutions Pvt. Ltd. *Thrissur, Kerala*
– Developed 15+ Android UI components and end-to-end application workflows in an agile environment, accelerating project delivery by 20%.
– Collaborated on mobile app architecture, conducted unit testing, and resolved bugs, reducing reported defects by approximately 25%.
– Implemented PHP REST APIs to integrate mobile frontend with backend data services, supporting 100+ product listings.

Projects

LiveEvent | *Event Management System with Emotion Detection* | Python, Django, MySQL **2024**
– Built a full-stack event management platform with role-based dashboards, JWT authentication, and Django ORM for booking workflows.
– Integrated an AI-based NLP sentiment analysis module to analyse attendee feedback, improving organiser decision-making by approximately 40%.
– Designed RESTful API endpoints and relational database schemas to support multi-role user access and real-time event data.
TiCare | *Pet Vaccination Management System* | PHP, MySQL **2023**
– Constructed a web-based system managing vaccination records for 50+ pets with real-time tracking, automated reminders, and role-based dashboards.
– Created normalised relational database schemas and CRUD interfaces, reducing manual record handling by approximately 60%.
Construction Helper | *Android Application* | PHP, MySQL, Android Studio, Java **2023**
– Built a multi-role Android application with PHP REST API backend, managing 100+ product listings and improving procurement efficiency by approximately 30%.
– Implemented role-based access control and CRUD operations bridging the Android frontend and relational backend.

Education

Master of Computer Applications (MCA) **2024 – 2026**
Nirmala College, Muvattupuzha *CGPA: 74.72%*
Bachelor of Computer Applications (BCA) **2021 – 2024**
Mar Osthatheos College, Perumpilavu *65%*
Higher Secondary (+2) **2019 – 2021**
Concord E.H.S.S *80.25%*
Secondary (SSLC) **2019**
DePaul E.M.H.S.S *87%*

Certifications

Advanced AI & Machine Learning Program – ELITE Grade **2024**
NPTEL / IIT Collaborative Programme
– Completed intensive programme covering machine learning, NLP, and emotion detection with distinction (ELITE grade).
Python for Data Science **2023**
NPTEL
– Certified course covering data analysis, scientific computing, and Python libraries.
Android Development Internship Certificate **2024**
Grapesgenix Technical Solutions Pvt. Ltd.
